2. Tab "C", the substantive report of the working group, will be prepared Thursday afternoon, and I assume that [REDACTED] can arrange with [REDACTED] for its distribution to the members.

3. As you know, this whole matter is considered to be extremely sensitive and is of interest only to State, Defense, and CIA. As a result, I wonder whether or not it would be desirable to restrict the circulation to just those members and to handle discussion at the meeting in the same fashion.
